## **Elden Ring Free X64 (Updated 2022)**

The Elden Ring is a 3D fantasy role playing game where you control three different classes: Valkyrie, Hero, or Warrior, and you can also decide whether to equip a playable weapon or not. In the Underworld, you can customize your class's weapons, armor, and magic, and you can also earn EXP and become stronger by defeating monsters and defending towns. In the Underworld, you are not alone. If you choose, you can team up with other players to become a guild and take on awesome challenges. When you defeat monsters, you can also take their unique kinds of EXP. In the RPG world, you can invite your guild members, and you can interact with your guild mates by sharing items or information. Also, you can invite guilds to your guild room and talk together there. Online Multiplayer Game: The game supports online multiplayer (both party and guild) allowing players to play in real time. Also, the online aspect of the game features a character creation screen that allows players to pick their character and their equipment, and it also allows them to

---

join another game world with their created character, and log in. **Guilds:** The game has guilds, which function in the same way as the standard multiplayer game. Players join a guild. In the game, guild members can exchange information, items, and party information, as well as other kinds of guild activities. **Party System:** In addition to online multiplayer, you can form a party with up to three of your guild members. You can also arrange your party formation. • **Single Player System** In the single player system, the game's content is determined by the player's choices. In the single player game, you can freely play your game content with no specified order of progression. You can also develop your character in any way you want. **World Map:** All areas of the game are linked together by travelling in world map. The map can be seen when you are a guild member, or when you are a certain level of a specific area in the game world. The map is a larger map for the area that you are in. Travel by boat, and it will lead you to a new map. **Online Item Trading:** You can trade items with friends for a

different price than with other players. You can only buy items from other players, and you cannot sell items to other players.
