The invention relates to the use of beta-lactam antibiotics with the activity of, inter alia, penicillins, cephalosporins, carbapenems and monobactams in the treatment of heart valve infections. Known beta-lactam antibiotics with the activity of penicillins, cephalosporins and carbapenems, such as oxacillin (cf. EP-B 0 002 046), imipenem (cf. DE-C 2 131 222), and clavulanic acid (cf. EP-B 0 018 682), are used for the treatment of heart valve infections. Also known are beta-lactam antibiotics with the activity of monobactams, such as aztreonam (cf. U.S. Pat. No. 4,965,355) and avibactam (cf. Tetrahedron 56, 6475 (2000)). However, the development of resistance in bacteria towards known beta-lactam antibiotics has caused difficulties in the treatment of heart valve infections. Accordingly, there remains a need for beta-lactam antibiotics which show improved bactericidal activity against resistant bacteria with the simultaneous advantage of a good pharmacokinetic profile and freedom from side effects. The object of the present invention was to prepare beta-lactam antibiotics with the activity of monobactams which, in the treatment of heart valve infections, have an excellent spectrum of efficacy against both sensitive and resistant bacteria and which also have a good pharmacokinetic profile and freedom from side effects. This object is achieved by the compounds of the formula I in which R^{sup.1} and R^{sup.2} independently of one another are hydrogen, halogen, nitro, alkyl, alkoxy, haloalkoxy, thienyl-alkoxy, alkylthio, cyano, halogenoalkoxy 0cc13bf012

And it's not an event I would go up there to watch, I have too many other things to do. I'd go up there to buy a ticket, and I'd go up there to buy a beer. If I wanted to watch it, I could watch it on my phone. Or watch it on my computer. Or watch it on Twitter. I could walk around the bar and see the fights. I don't have to go up there. I could watch it right here. GW: You want to make a case that fans aren't really the ones who need to be convinced to see fights at Barclays? LB: No, they're the ones that convince me. People are the ones that go and watch it, people are the ones that pay for it. The people that come in, the ticket buyers, they're the ones that convince me to come back. They're the ones that convince me to do these bar shows. They're the ones that convince me to bring UFC shows to Mexico.
